Prerequisite: *Seven Spiritual Arts Training Program, Direct Divine Light Healing Program.*

PROGRAM OBJECTIVES

For those who want to continue life-long learning in the spiritual arts, **The Kingdom of Light Teacher Program** is an advanced program in the inner mysteries that offers candidates the opportunity to continue in their spiritual studies and develop their full spiritual potential. Regardless if the goal is to become a professional teacher, by reaching the teacher status, candidates can apply the knowledge gained in any facet of life and will go far to fulfill their part in the divine plan.

There are five levels of certification. Each certification represents a level of spiritual accomplishment as well as a level of teaching credential leading to the level of Kingdom of Light Teacher. With these various certifications, teachers will participate in instructing the various programs at Spiritual Arts Institute and help many souls advance on their spiritual path.

At the start of the program, the candidate and instructors will outline personal objectives and goals. Although the various tools and skills learned will be put to immediate use, it is strongly emphasized that *The Kingdom of Light Teacher Program* be viewed as a long-term project. Regular attendance at the annual Spiritual Arts Institute retreats is required for certifications.
